

The Activation Checklist

The pre-flight checklist we run before every build. Steal it for your next activation.

THE IDEA

- ☐ Can you name the one feeling in a single sentence?
- ☐ Does every element ladder back to that feeling? Cut what does not.
- ☐ Does it hold up against the brand's 3 to 5 pillars?

THE FLOW

- ☐ What draws someone in from 30 feet away?
- ☐ What is the easy first step that gets a stranger to engage?
- ☐ Where does the line form, and does waiting build energy or kill it?
- ☐ What does someone leave holding, and what are they saying?

THE PAYOFF

- ☐ Who is capturing content, and what is the shot list?
- ☐ What 3 numbers will you report after: dwell time, samples, shares?
- ☐ What is the one-pager you send stakeholders the next morning?

THE MOMENT

- ☐ Where is the shot people will film without being asked?
- ☐ Is it recognizable with the logo cropped out?
- ☐ Is capturing and posting it effortless: lighting, framing, signage, the handle to tag?

THE REALITY

- ☐ Honest budget by line item, with 10 to 15% contingency.
- ☐ Power, water, wifi, load-in, load-out, storage, weather backup.
- ☐ Permits, insurance, venue rules, and brand or legal approvals locked.
- ☐ Staffing plan and run-of-show by the hour.
